

**UCHIDA**

AIR SUCTION PAPER FOLDER  
**AEROFOLD PLUS**

# AeroFold Plus

Uchida paper folding machine AeroFold Plus can fold up to SRA3 size of various types of papers such as offset, coated, digital printed papers etc. by its belt suction feeding system. Paper weight up to 160 gsm. (up to 230 gsm for single fold) / Paper size up to 330(W)x488(L) mm. / Folding speed up to 18,000 sheets/hour. (single fold)  
Memory function for fine folding position adjustments & odd size papers / Error detection & indication makes it easy to diagnose. / Double feed detection alarms when it feeds double sheets. / With optional accessories, perforating, scoring, folding longer sheets becomes possible.

## User Friendly Operation Panel

No.	Name	Function
1	Perforation mode lamp	Indicates when the optional perforating unit is installed.
2	Cleaning lamp	Indicates when cleaning FEED section (belt, roller) is necessary. It lights every 10,000 sheets fed.
3	Check lamp	Indicates when paper is empty, or the location of paper feed trouble.
4	Interval key	Sets time of interval between the batches.
5	Paper length input mode key	For inputting and indicating out of standard size paper.
6	Memory 1/2/3 key	Three irregular folding types can be input and stored.
7	Store key	To store adjusted positions.
8	Double feed detection	To activate / inactivate double feed detection.

## Folding patterns

## Increased stacking capacity

AeroFold Plus features a feed tray that is capable to stack 800 sheets of 80gsm. Air suction feeding system prevents mis-feeding and roller marks on even glossy digital prints.

## Tidy paper ejection

Belts & rollers help the folded prints neatly stacked on the ejection tray. The roller position is automatically adjusted. With an optional extension, stacking capacity can be increased.

## Micro perforation unit (Option)

Optional perforation unit / scoring unit add more capability to the machine. Perforating / scoring heads can be added into the unit according to applications.

## Specifications

	AeroFold Plus
<b>Paper size</b>	120(W)x210(L) mm - 330(W)x488(L) mm / 4.72"(W)x8.27"(L) - 13.00"(W)x19.20"(L)
<b>Paper weight</b>	52.3 gsm - 160 gsm / 35.30 lbs - 108.1 lbs (Up to 230 gsm / 155.3 lbs for single fold)
<b>Maximum stacking capacity</b>	800 sheets (80 gsm / 54.10 lbs paper)
<b>Paper quality</b>	Offset paper, copy paper, recycle paper, art paper, coated paper
<b>Folding speed</b>	Up to 18,000 sheets / hr. in 5 steps (80 gsm / 54.10 lbs paper, single fold)
<b>Automatic fold pattern setting</b>	Single, letter, zigzag, double parallel, fold-out and gate fold
<b>Counter</b>	4 digits, addition / subtraction digital counter
<b>Paper feeding system</b>	Upper belt suction feeding system + double feed detection
<b>Memory</b>	30 kinds / 18 kinds (US ver.) for standard paper sizes and folding patterns, 3 kinds for odd size paper
<b>Automatic paper size detection</b>	A3, A4, A5, B4 and B5
<b>Paper ejection system</b>	Automatically changed for 8 paper sizes and folding patterns
<b>Additional features</b>	Batch function, paper jam detection, slant adjustment, automatic feed table elevation
<b>Power supply / consumption</b>	110-120 VAC, 50/60Hz, 2.6A, 240W / 220-240 VAC, 50/60Hz, 1.5A, 260W
<b>Dimensions / Net weight</b>	1,170(W)x587(D)x650(H) mm, 68 kg / 46.10"(W)x23.10"(D)x25.60"(H), 151 lbs
<b>Error detection</b>	Empty feed, no paper, paper jam, stacker full, incorrect table setting
<b>Options</b>	Perforation unit (micro perforation), scoring unit, narrow perfing/scoring head optional folding table for folding 630mm length paper in single fold, delivery tray extension

\* Production rates are based on optimal operating conditions and may vary depending on stock and environmental conditions.

\* As part of our continuous product improvement program, specifications are subject to change without notice.

Optional perforation / scoring heads

Optional blades for perforation head
