RIGO e-Cut 480 / 520 / 550 Electric Guillotine

The e-Cut electromechanical guillotine is one of the most effective cutting solution for small to medium sized print shops.

The e-Cut series is one of the fastest electromechanical guillotine in the market today .

The machines are still compact, but are full of features normally only seen on bigger machines.

The back gauge has a dual axis drive, which is unique in this class.

Every Rigo e-Cut comes standard with a colour touch screen, is programmable and has light curtains fitted for your safety.
